

Thank you for your interest in the New Britain Bees Host Family program. Attached you will find a copy of our host family information form. Before you fill out the form, we wanted to provide you with some more detailed information about the Host Family program.

We appreciate that you are taking the time to look into the host program and apply to host a player for the 2018 season. It is active community members like you, who add to the success of our organization, and will help to make our player's time here in Connecticut, a memorable one, as well as a great step in their baseball careers.

Who are our players you may wonder. Well, the majority of players on the Bees will range from 20 – 35 years of age. They will come to Connecticut from areas throughout both North and South America. They will have varying playing experience, ranging from those who have played mostly Single-A or Double-A ball to players who have spent time in the Major Leagues. They all have a couple things in common. Their love for the game of baseball and their hope of keeping their dream of playing baseball alive and getting to, or back to, Major League Baseball.

Our host families will be required to provide housing to New Britain Bees players from the time the players arrive in Connecticut, the middle of April, until the time they depart at the conclusion of the season, in late September. Due to the frequent number of changes made to our roster throughout the season, it is a good possibility that the player that starts the season with your family will not be the player with you when the season concludes. It is important for you to understand that if the initial player you host leaves the team, we will ask you to take in another player to fill that spot.

Host families are required to give players a private bedroom. Players will also need access to a bathroom, laundry room, and kitchen, and any other amenities that you would like to provide your player would be greatly appreciated.

For becoming a host family the Bees will give you the opportunity to attend every home game during the 2018 season. You will also be invited to any special events throughout the year, including a batting practice/picnic event where your family will be able to take live batting practice on the field. For making one of our players feel at home, we will make sure you feel like a part of our family as well.

Sincerely,

Allison Farrell
